

Shrinking City on a Molehill

*"American myth ...
anti-intellectual
cult of ignorance*

*democracy means
my ignorance is as good
as your knowledge" — quote**

anti-science makes
this banana republic
great again, eh Trump?

rotting from within
shining city on a hill
its sheen fading fast

expats seek true home
as Lady Liberty weeps
Rome fell, inside job

* Isaac Asimov, PhD, professor of biochemistry, writer of science fiction, humanist
