

### Haiku Hack

how hard can it be?  
seventeen syllables  
just three lines of text

like birds on a wire  
thanks to gestalt illusion  
readers do the rest

fill empty spaces  
as we strain to understand  
what's not really there

nonsense words make sense  
in hungry dissonant minds  
therein lies the art

toss a word salad  
of random ingredients  
then see how it tastes
