

A haiku quintet

**Humanists**

we care for people  
in their natural lifetimes  
we're good without gods

blind faith cannot see  
ancient myths cloud our vision  
of plain facts of life

inconvenient truth:  
gods' will and heaven's gate are  
pre-science fake news

we're born, then we die  
savor this one awesome trip  
smell sweet roses' scent

en route, please be kind  
love our fellow passengers  
aboard this frail boat
