

Identity Precedes Ideology

my tribe hates your tribe
all fair-minded folks agree
you are stupid fools

your tribe hates my tribe
we are effing idiots,
blinded by fake news

you're on the wrong side
history will prove me right
... my tribe tells me so

where does truth reside?
how can I know that I'm right?
and that you are wrong?

I can't know, for sure
and neither can you, my friend
let voters decide*
