

## Haiku Pun

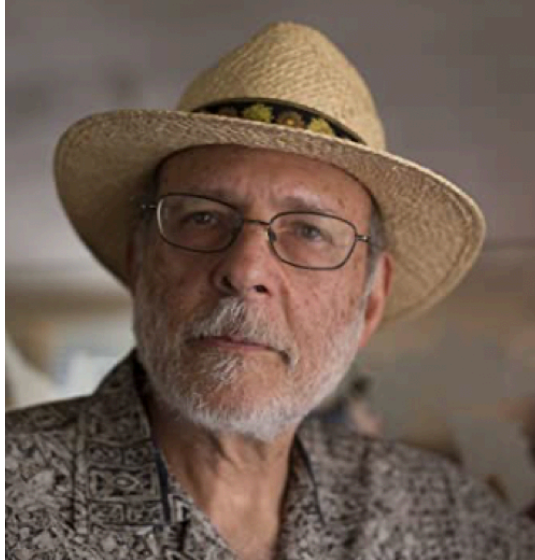

relationship of  
dermis to epidermis?  
it's the next of skin

you can't hear when a  
pterodactyl urinates --  
the "p" is silent

the poet's insults  
of the policeman led to  
rhyme and pnishment

speech impediments  
that occurred in World War Two  
were called Schindler's Lisp

my optometrist  
and I agree on most things.  
we see eye to eye

Inspired by the curious creativity of master punster Barry Zack. Our Sarasota friends helped select the final five for this quintet.
