

## Kissing Quandary

so snug on the couch  
blanket tucked under your chin  
blonde wisps frame your face

your afternoon nap  
this precious at-home Sunday,  
you've been working hard

sweet love swells my heart,  
we're two puppies in a box  
sharing life's comforts

might I sneak a kiss  
on your cheek, but not wake you?  
my lips want your warmth

no, you need this rest  
you would lift your sleepy head  
to greet my sly kiss
