

## American Expat

midwestern farm boy  
alien in my homeland  
is this still my place?

Trump's America  
clenched in MAGA's gun-crazed fist  
I do not belong

autocracy looms  
demagoguery ascends  
it's all on the line

Founders' dream's deathwatch  
if fake "patriots" take charge  
I'll be an expat

I'm too old to flee  
young ones yet may find a way  
where will they call home?
