### **Is It Any Wonder?**

from birth we're fed bunk:  
Sky Daddy is watching us,  
then, eternal bliss

God's messengers preach  
bizarre fictions as pure truth  
in straight-faced belief

loving parents teach  
what their own parents taught them,  
pretending wisdom

we crave safe harbor  
from life's Great Unknowns lurking  
our dark worried nights

so, it's no wonder  
conspiracy theories thrive  
in this moonstruck world
