

Sugar and Joe

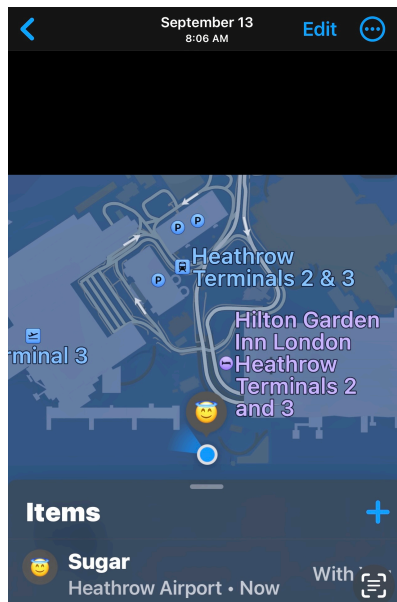

paw in paw they flew
in Delta's chilly belly
to distant London

furry childhood pets
reincarnated today
as Apple Air Tags

five hours have vanished
welcome to Heathrow, poochies,
did you mutts sleep well?

next, train to Oxford
a soft bed awaits us there,
where old dogs can rest

puppy spirits live,
tails wagging more slowly now,
but the urge remains

Screenshot on arrival. Sugar and Joe were Susan's and Dan's first pets, respectively.
