

## Happy Festivus

hail, winter solstice!  
northern earthlings' shortest day,  
axis' greatest tilt

let us celebrate  
our Neolithic forebears'  
Sun God's next rebirth

Stonehenge pagans' rites  
or Saturnalia's heirs  
— what's YOUR tradition?

Hanukkah, Christmas,  
or mischievous Festivus  
for the rest of us

let's join together  
as secular humanists,  
be kind and have fun!

A parody holiday celebration first broadcast on a *Seinfeld* episode December 18, 1997.
