

Woke?

Black man sits alone
conference luncheon table
I approach to join

I'm warmly welcomed
intent: anti-racism
did he see my try?

same act if white man?
affirms race? or denies it?
race-blindness atones?

culture's baggage lurks in me
is special notice racist?
am I woke? what's woke?

liberals seeking,
self-questioning, still learning,
we want to get clear
