

**Song for Susan**

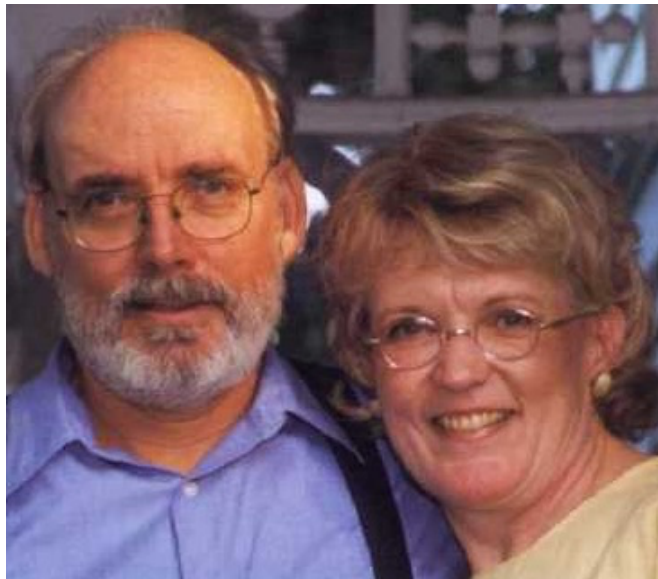

dear co-traveler,  
this path we chose together  
hand in hand we go

your innate kindness  
guiding me and growing me  
showing me myself

our trust locks our bond  
no dark suspicions intrude  
e duo unum

plain humanism  
no supernatural myth  
we believe in us

onward 'til our end  
living day by precious day  
my friend, love, heart, mate
