

**Life's a Movie**

what a show this is!  
director's chair? – nah, just watch  
seems almost real, eh?

laugh at comic bits  
suspense ... what'll happen next?  
cry in tragic scenes

take a seat, my friend  
relax, it's not about us  
let's watch together

que será, será  
whatever will be, will be  
will be fun to see

far-future is known:  
red sun will vaporize Earth  
meanwhile, share popcorn
