

**Pondering Infinity**

“here” lies in-between  
multiverse and quantum world:  
uber-cosmic scale

“now” spans life’s sojourn,  
Big Bang to eternity:  
time’s unsure end-points

human mind flummoxed  
infinity eludes grasp  
limitless spacetime

my puny brain fails  
marveling in wonderment  
in fleeting glimpses

magical thinking  
invents SUPERNatural  
this is all there is
