

## Be Like Jimmy

Carter's Camp David device: merge dueling proposals into a single text, step by smart step—peacemaker's power tool, mediator's magic method, compromise's secret sauce, agreement's active ingredient, accord's potent partner, sticky wicket's escape hatch, conflict's skeleton key. Life hack at national borders, corporate boardrooms, workplaces, family tables. Be like Jimmy. (Google "single-text negotiation")
