

Project Aletheia

it is well-argued:
Europe brought modernity
to Earth's far-flung lands

its tongues told tall tales:
virgin birth and afterlife
and male god's sky-throne

tongues may also teach,
a trojan horse of plain truth
reveals nature's facts

evidence, not myth,
proves goodness, not godliness,
makes life worth living

through Europe's fine words
may Aletheia's spirit
touch all who suffer
